

CREAFLEX® PFE-210

Typ:	FFKM (Perfluorelastomer)
Serie:	Standard
Compound-Nr.	PFE-210

■ Properties

Physical Properties	Standard (ASTM)	Unit	Value
Service Temperature	D2000	Celsius	-20°C bis +260°C
Hardness	D2240	Shore A	78
Color	-	-	black
Tensile Strength	D1414	N/mm ²	16,2
Elongation (Break)	D1414	%	195
Modulus (100% Elongation)	D1414	N/mm ²	10,3
Compression Set O-Ring 72h@200 °C	ISO 815	%	17

■ Description

CREAFLEX® PFE-210 is a premium Perfluorelastomer with a superior chemical resistance in combination with a wide service temperature.

■ Features

- Superior Chemical Resistance
- Wide Service Temperatur Range
- Very low compression set
